

To get the app:

1. Go onto your app store on your device and search for **1- Minute Maths**. Click 'get' or 'install' (depends on the device you have). The app is **free** so you will not be charged.

2. Once you have downloaded the app it will appear on your device.

3. When you click on the app it will take you to this screen. Children **don't** need to log in.

How to use the app:

Your child can choose any topic they want to try. They then answer a unique series of questions (so it's a different set of questions every time). If they're struggling with a question, a 'Hint' button will give a helpful clue by showing the question in a different but familiar way.

When the one minute's up, they'll see a feedback screen telling them how they've done.
