

Moth

Isabel Thomas

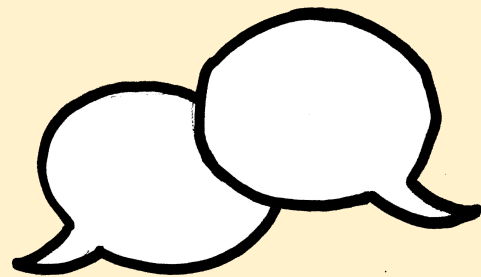

Quick Start

- The story started with a little what?
- Name one of the moth's predators.
- Name one thing that made the world darker.
- Why were there more charcoal covered moths?

Vocabulary Check

- of change and adaptation
- wings as dark as charcoal
- lichen-covered branches

Partnered Talk

What advice would you give to a peppered moth?

Individual Thinking

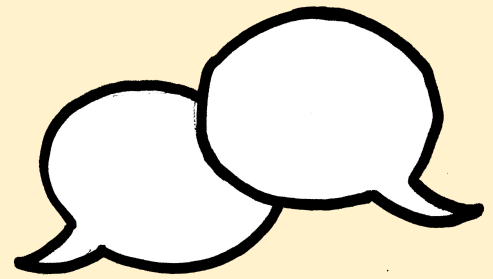

Why were the moth's wings described as 'salt and pepper wings'?

Individual Thinking

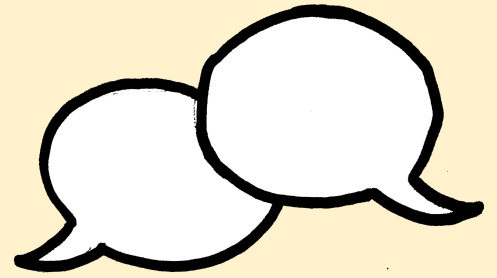

Why don't peppered moths hide on pale trees?

Partnered Talk

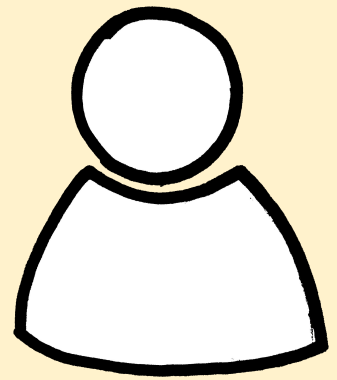

How did the world change and how did this affect the moths?

Partnered Talk

How is the colour black used to convey meaning in this picture book?

Solo Work

Using the text, explain how animals adapt to the environment and how this might change what an animal is like (evolution).
