

Monsters of Mexico!

Alebrijes

In our last art lesson, we found out about the colourful Alebrijes of Mexico and began to design our class sculpture (here's the link for the video we watched in class if you want to watch it again <http://www.viewpure.com/dmTSY-VozkA?start=0&end=0>).

My art challenge this week is to use what you know about alebrijes to design and colour your own.

When you're happy with your design, you could use the 'Art Jumpstart' ideas as a starting point to bring your drawing to life in the form of a sculpture. Your sculpture can be as big or small as you like and made from anything you have lying around - a cereal box, egg boxes, scrunched up paper, rolled up tin foil... the list is endless. Don't forget to send photographs of your fantastical creatures to the remote learning email address - prophetsremote@infinityacademies.co.uk

If you don't get your sculptures finished, feel free to bring them to school when we are back to finish during our art lessons.

I can't wait to see what you create!
