If the link doesn't work then try pressing control + clicking

Use your planning sheets you created yesterday as well as the model texts you have been reading on Monday and Wednesday.

Use these to create your own setting description from the Coco clip

Remember to include:

Powerful verbs.

- Carefully chosen adjectives and expanded noun phrases.
- Subordinate conjunctions (while, if, although, since, after, before, because).
- Fronted adverbials (where, when and how something happens)

Don't forget to read over your work to make it make sense and then improve it. Can you make your words more powerful? Can you make your sentence a better sentence type? Can you add any up-leveled grammar?
