Months and Seasons

The spring months are March, April and May.

With a partner, look at the seasons wheel.

- Name the winter months.
- If the month is October, what season is it?
- If the month is March, how many months are there until summer begins?

Spring around the World

Spring falls in different months of the year, depending on where you are in the world.

The UK (United Kingdom) is in the northern hemisphere of the earth. The bottom half is called the southern hemisphere. The two hemispheres are split by an imaginary line called the equator. The closer you are to the equator, the hotter the temperature.
