

INVESTIGATION DIARY

Look at the four plants.

- Remove all the leaves from one of the plants.
- Remove most of the leaves from another plant.
- Remove some leaves from another plant.
- Keep the fourth plant as it is.

Our question: How does removing different amounts of leaves affect how a plant grows?

What we are changing:

What we are observing:

It will be a fair test because we will _____

We will put all of the plants _____

OBSERVATIONS
