Dear Disciples Class,

As the CEO of Infinity Academies, I am writing to inform you of our new plans for the school field at St Nicholas CE Primary Academy.

It has been brought to my attention that your school field does not get used very often at all. In fact, I have been told that it was not used at all last year. This is a massive waste of very valuable land and we need to do something about it.

As a result, I have made the decision to build a volcano on the school field. The volcano will take up all of the school field and will take roughly four months to build. During those four months there will be some disruption around the school which will make it harder for you to concentrate on your work, but I have decided that it is worth it for the end result of a volcano on the field.

Once completed the volcano will completely transform St Nichols CE Primary Academy into not only a school but a visitor hotspot! This means there will be a very large amount of people wanting to visit the volcano. Obviously, they would need to buy tickets for this which means Infinity Academy Trust will receive lots more money to further invest in more volcanoes at our other school sites. Yes, there is the added disruption of more and more people visiting your school and Mrs Johnson and Mr Chamberlain will be extremely busy showing the people around but I think it is worth it for the extra money.

Ultimately, no one that I have spoken to has mentioned any negatives of building the volcano and if I do not receive any feedback the work will begin at the end of this term.

Yours Faithfully,

Mr Booth
