

INSECT TALLY CHART

Use this tally chart to record how many insects you see.

Add a tally each time you see a particular type of insect. Remember to draw every fifth tally mark through the previous four (||||). Count in fives to total them at the end of the lesson.

Make a note of where you saw most of each type of insect.

Type of insect	Number	Total	Where were most seen?
Bumblebee			
Honey bee			
Wasp			
Peacock butterfly			
Large white butterfly			
Tortoiseshell butterfly			
Other insects
