Quick Start

- What was the stranger dressed in?
- What did he do?
- Name three sounds he took.

Partnered Talk

Where did the sound collector visit and take sounds from?

How do you know?

Individual Thinking

What words could replace the emboldened words without changing the meaning?

The **crying** of the baby

The **drumming** of the raindrops

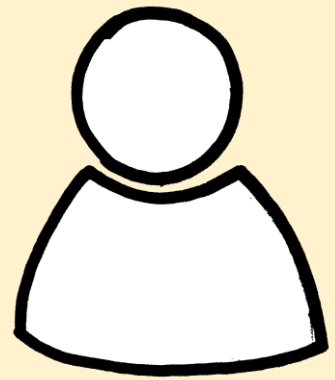

The **creaking** of the stairs

Individual Thinking

Think of two more sounds the poet could have included.

Solo Work

Why do you think poet might have dressed the sound collector in black and grey?
