To research a significant
event in history

Today you will be researching the events of the sinking of the Titanic.

You will be using a range of sources and will work through answering a number of questions on the subject.

On what date did the Titanic depart? _____

What was the Titanic's route? _____

What was the captain's name? _____

How many people were aboard the Titanic? _____

Who saw the iceberg first? _____

When did the Titanic sink? _____

How many people survived? _____

How many men, women and children died? _____

What caused the Titanic to sink? _____

Can you think of any
more questions you
would like answering?

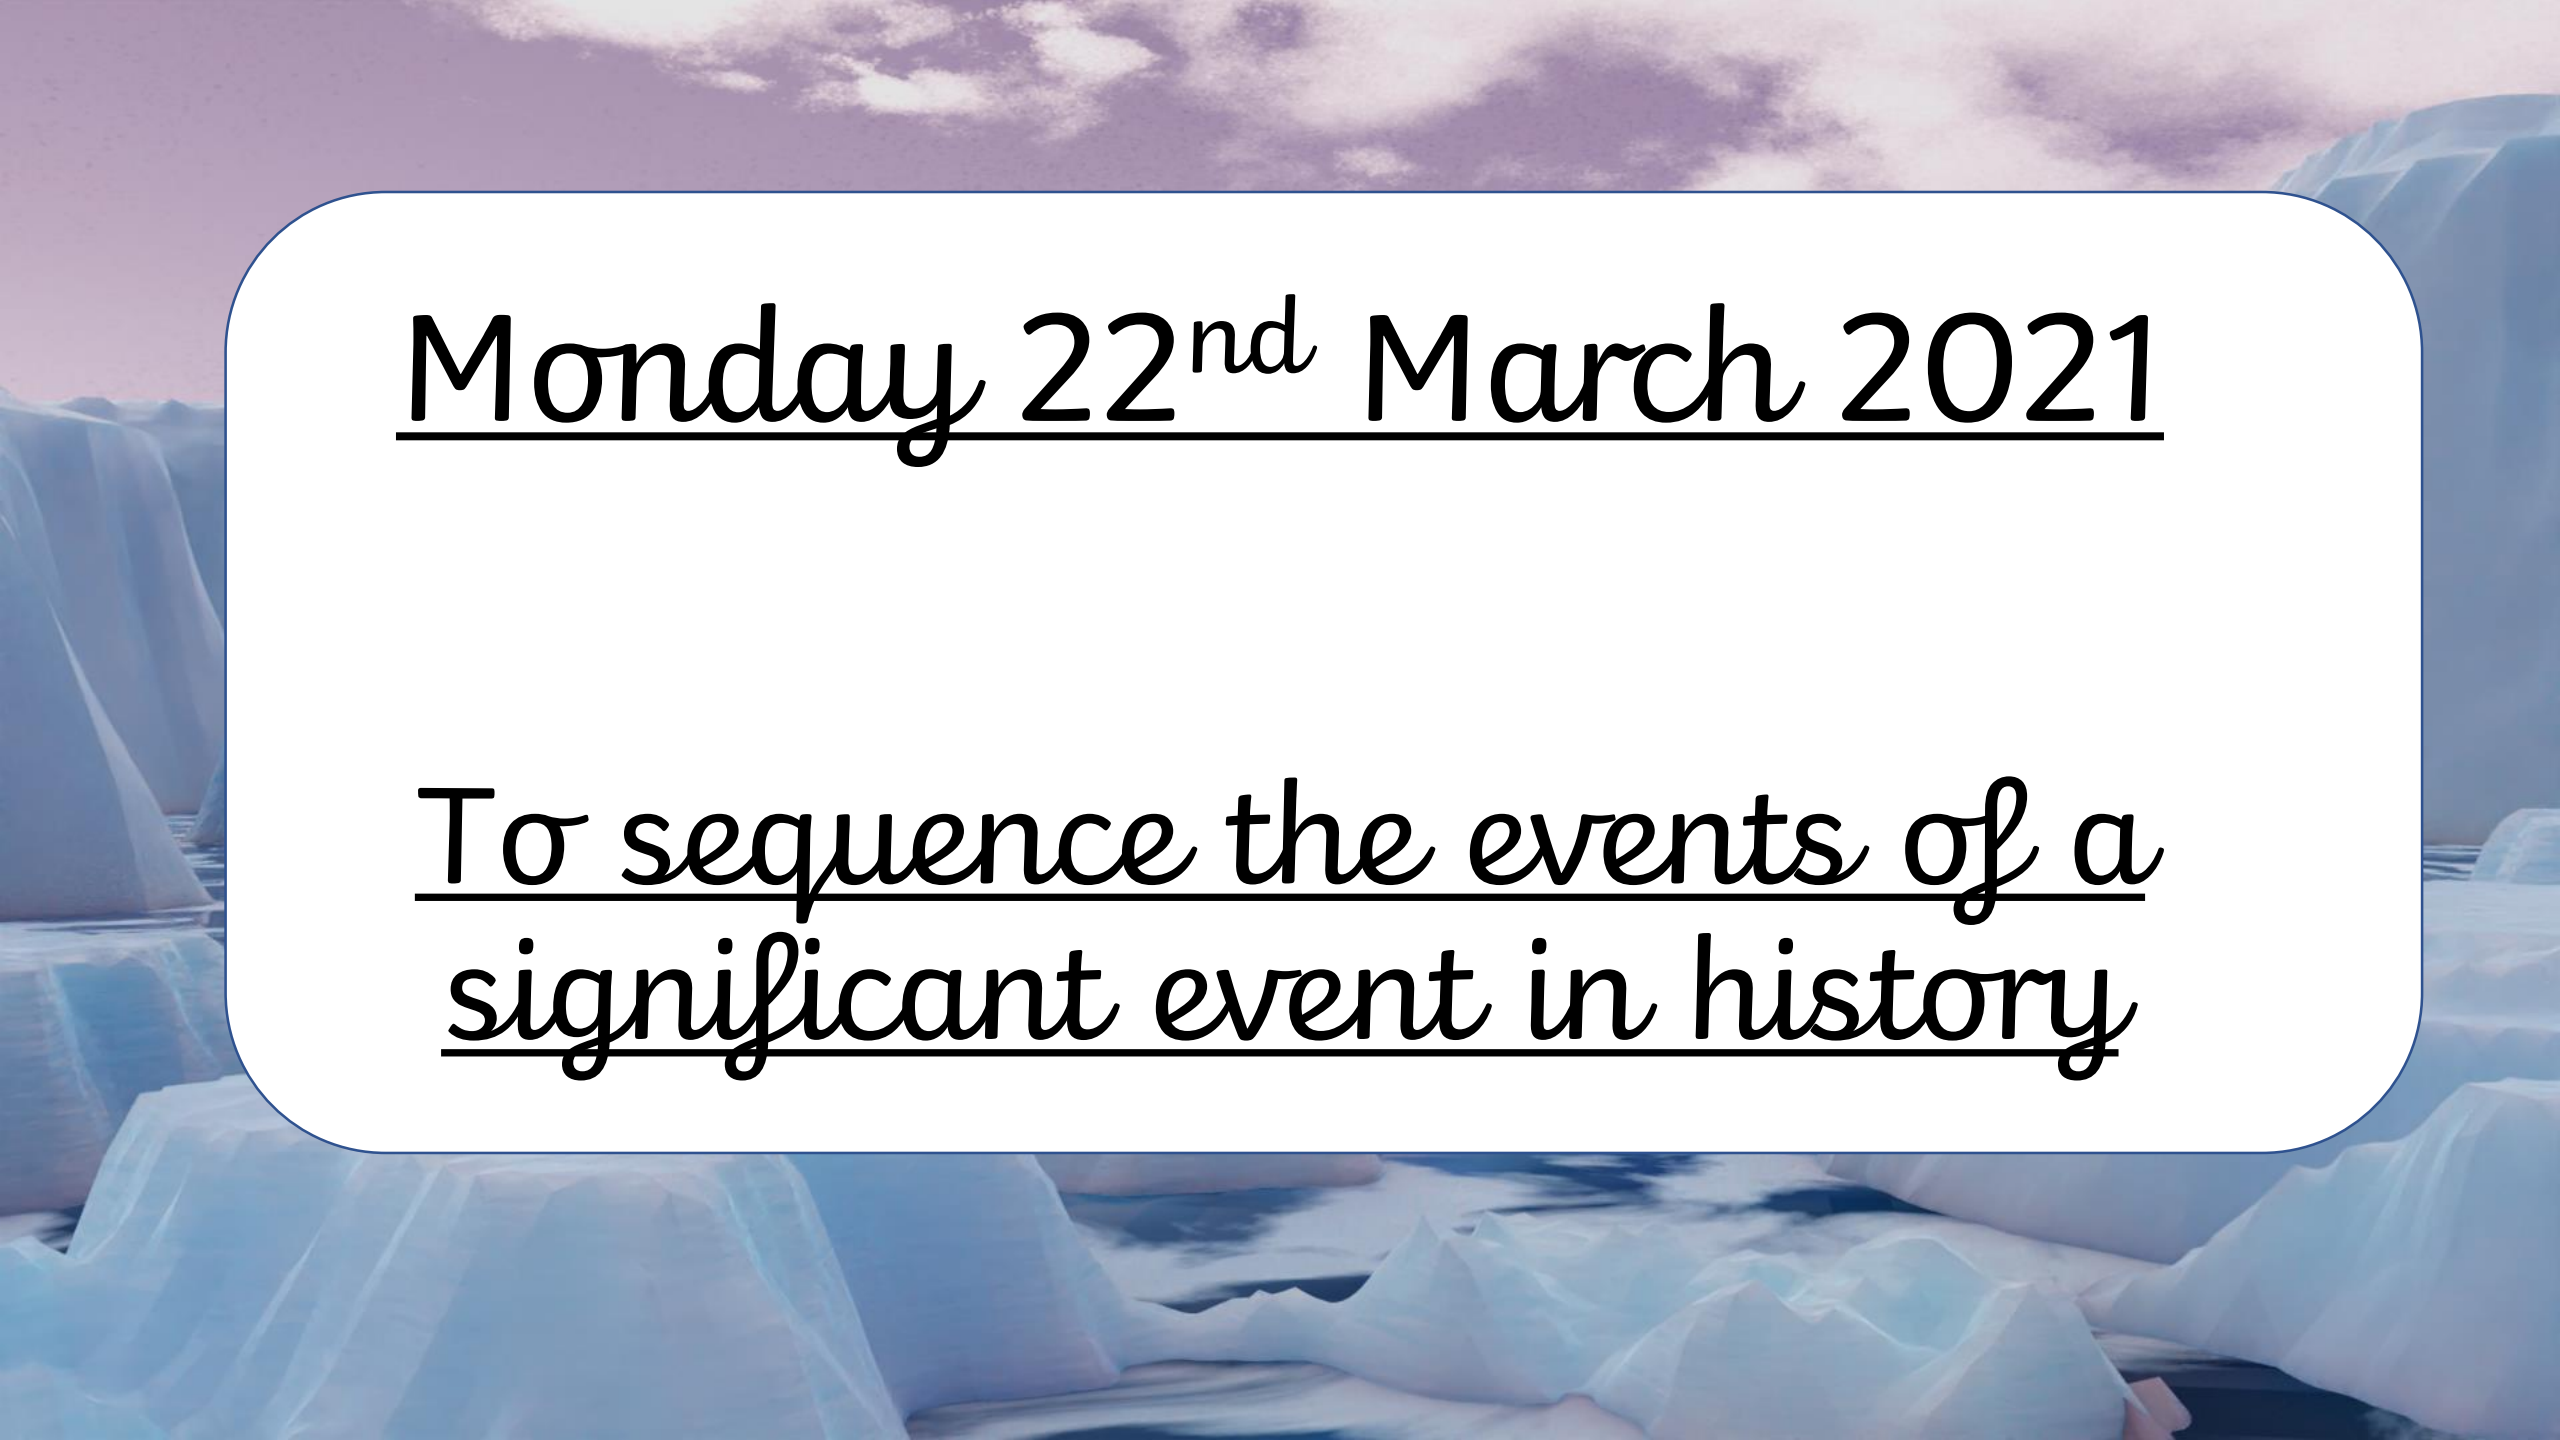

You will use the range of texts on your desks and reliable websites to answer the questions.

Google search the following:

Titanic facts national geographic

Titanic the school run

Titanic kiddie

To sequence the events of a
significant event in history

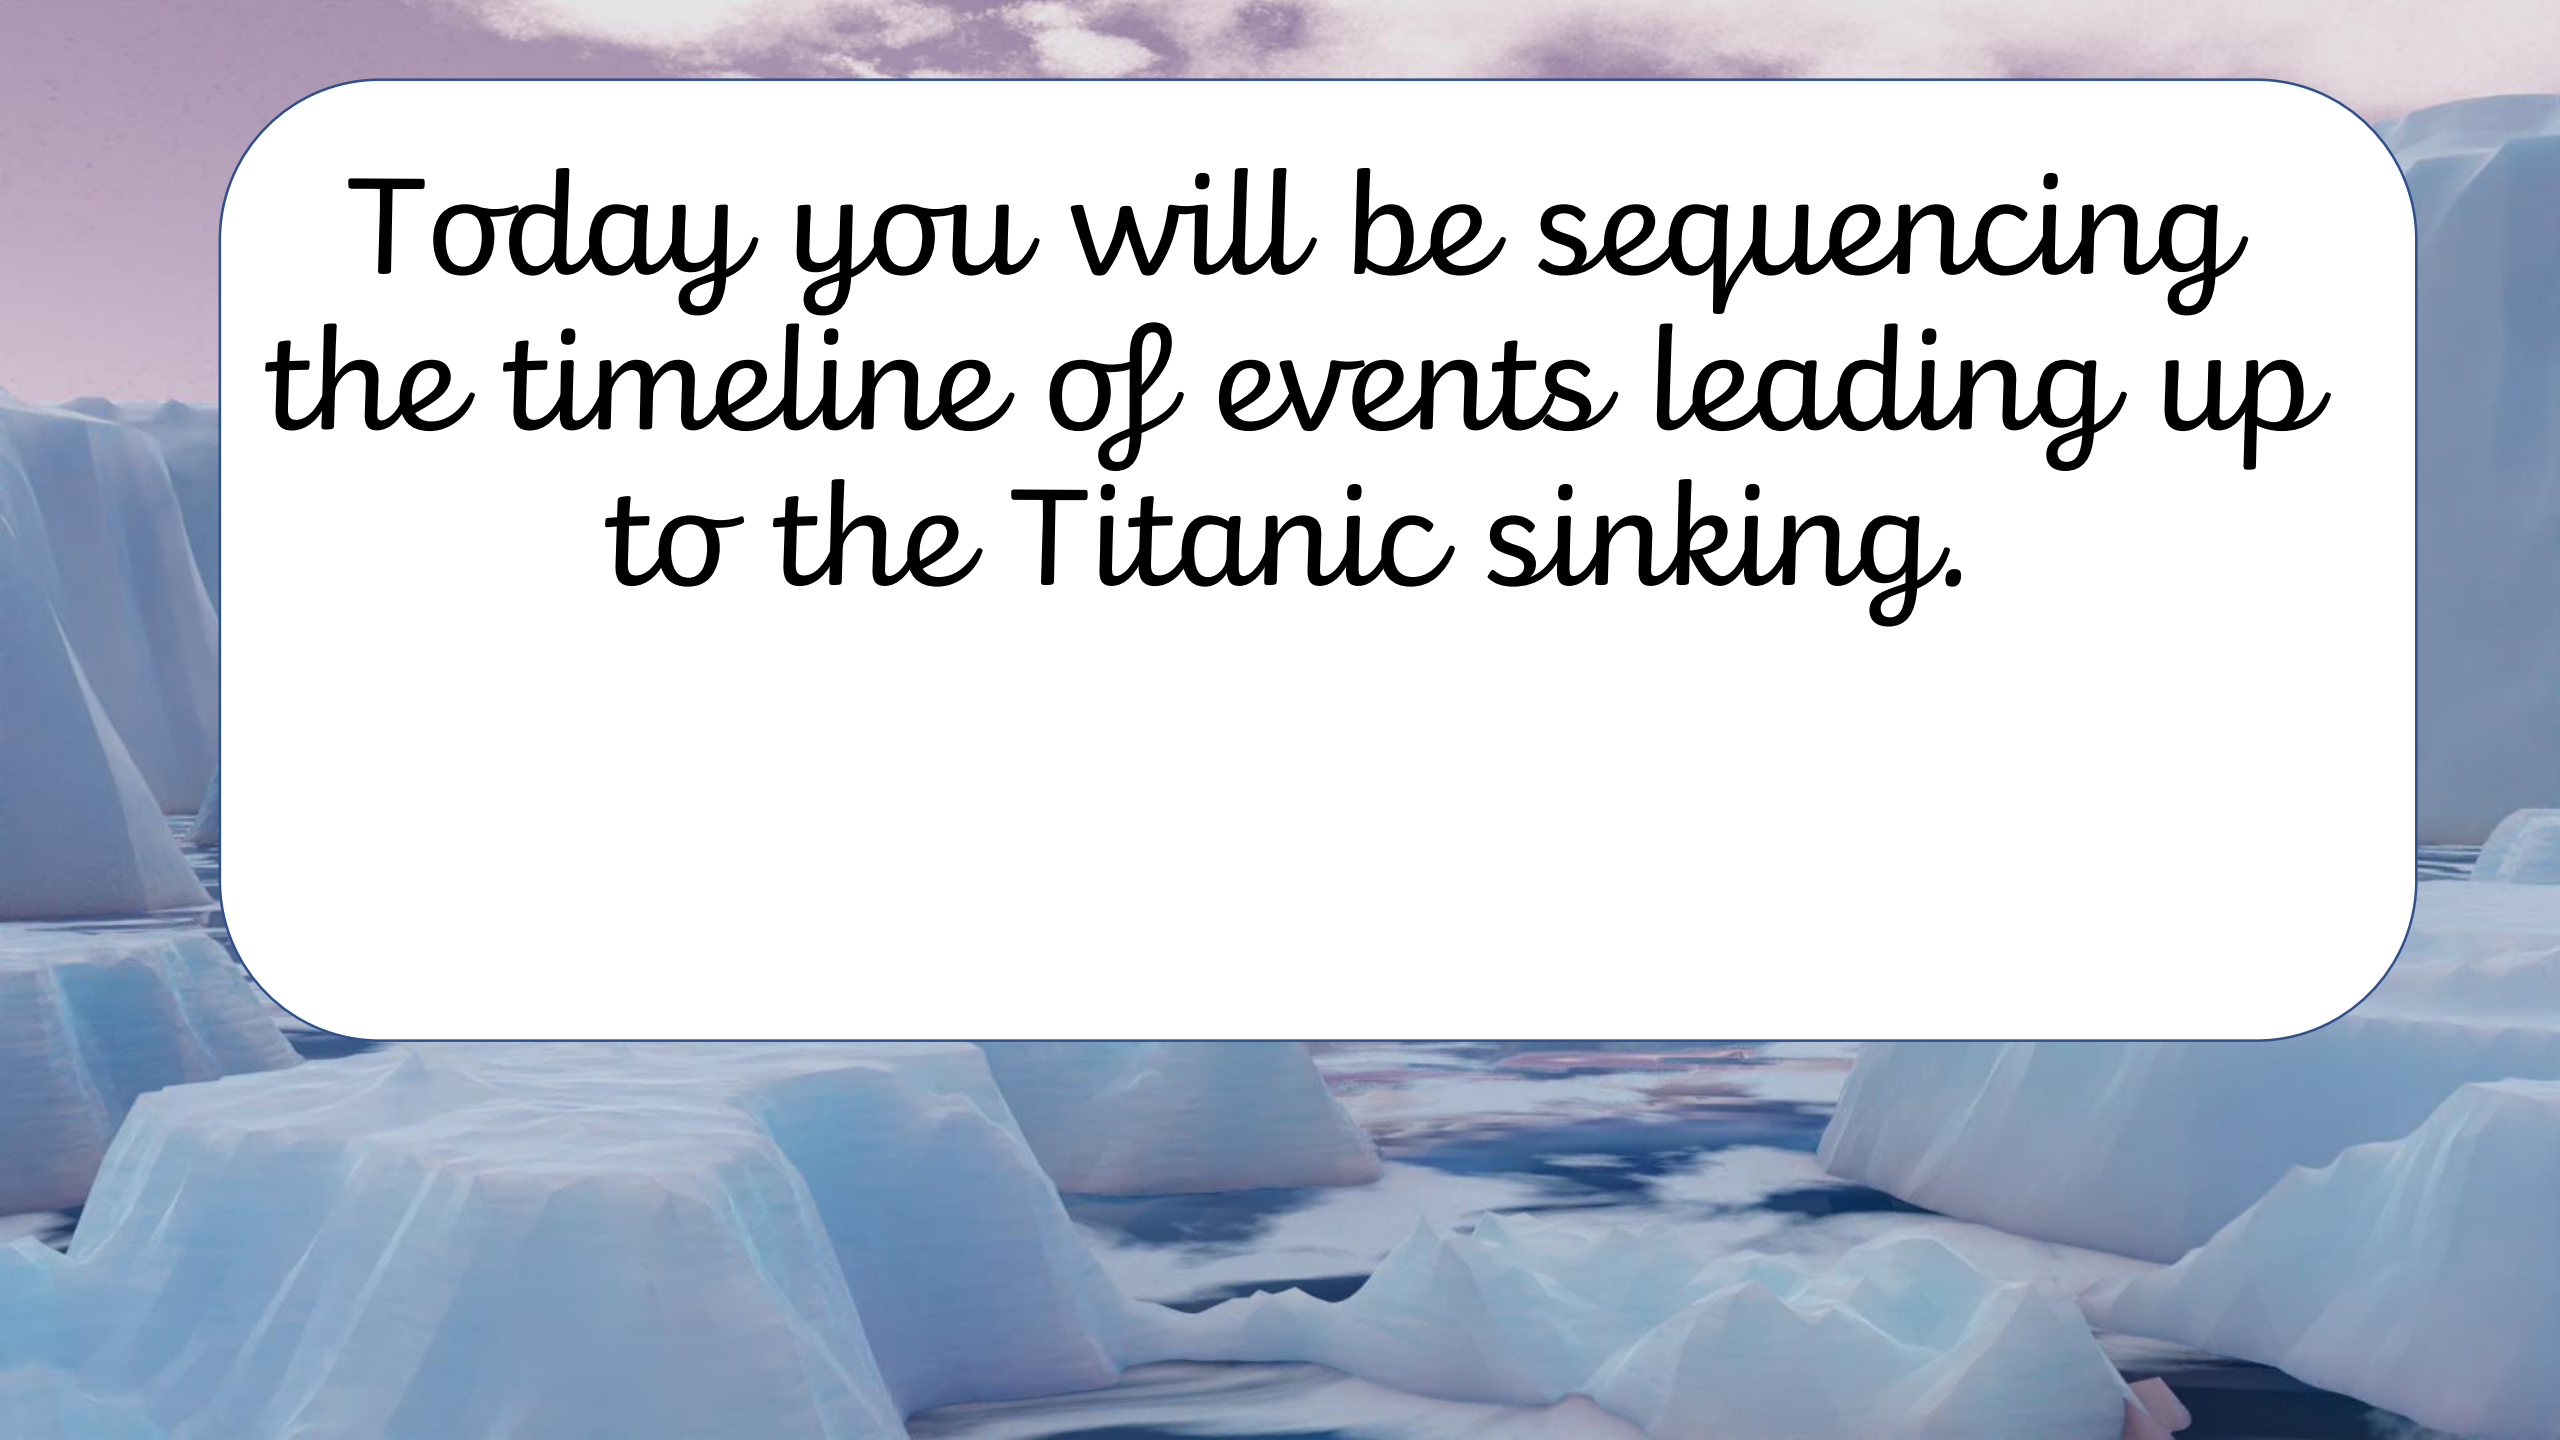

NATIONAL
GEOGRAPHIC
CHANNEL

- <https://www.youtube.com/watch?v=nFfdGUWNges&t=2s>

The background of the slide features a soft, painterly illustration of a cold, icy environment. In the foreground and middle ground, there are several large, jagged icebergs or chunks of ice floating in a body of water. The ice is rendered in shades of light blue and white, with some darker blue shadows indicating depth. The sky above is a mix of soft pinks, purples, and blues, suggesting a sunset or sunrise. The overall mood is serene yet somber, fitting the historical and tragic nature of the Titanic story.

Today you will be sequencing
the timeline of events leading up
to the Titanic sinking.

The background of the slide features a serene Arctic scene. In the foreground and middle ground, several large, jagged icebergs float on a calm sea. The ice is a pale, translucent blue. The sky above is a soft gradient of pink, purple, and blue, suggesting a sunset or sunrise. The overall mood is peaceful and expansive.

Now you will create a storyboard to show the events in chronological order.
