April 15th

12:00am – The captain was told the ship would only stay afloat for a couple of hours

12:05am - The orders was given to uncover the lifeboats and to get passengers and crew ready on deck. There was only room in the lifeboats for half of the estimated 2,223 on board

12:25am – The lifeboats begin to be boarded by women and children. The Carpathia received a distress call and started to travel to their rescue.

12:45am – The first lifeboat was safely released with only 28 of the 65 seats full.

2:05am – The last lifeboat was safely released from the ship with 1,500 people still onboard.

2:17am – The last radio signal was sent from the Titanic

2:20am - The Titanic's broken off stern settled back into the water, becoming more level for a few moments. Slowly it filled with water and tilted its end high into the air before sinking into the sea. People in the water slowly froze to death.

4:10am - The first lifeboat was picked up by the Carpathia.

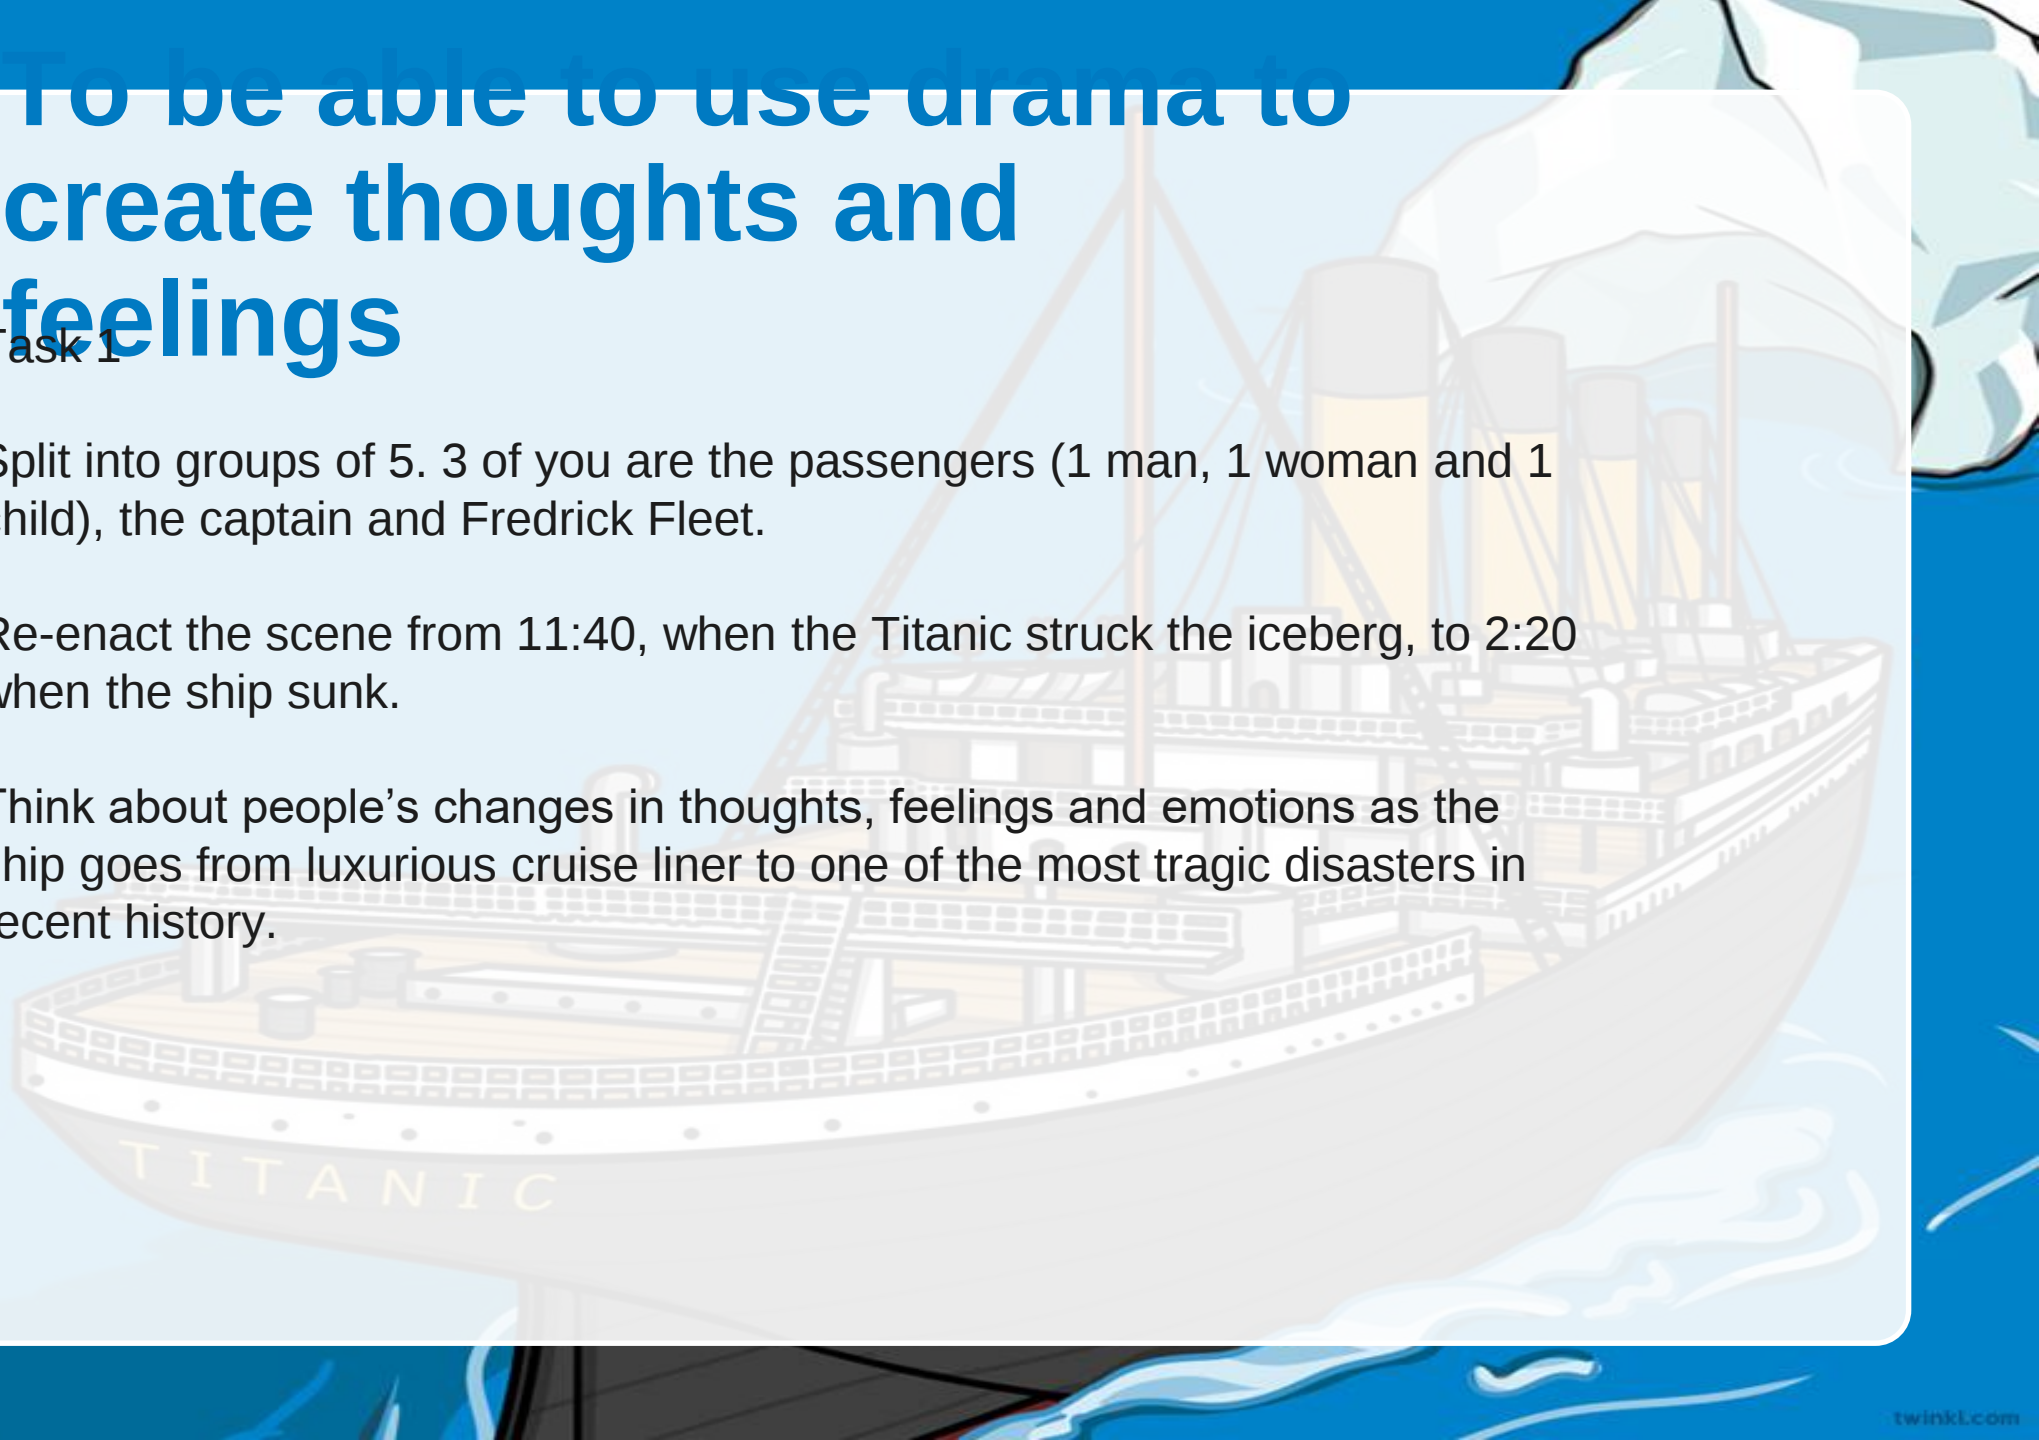

To be able to use drama to create thoughts and feelings

Task 1

Split into groups of 5. 3 of you are the passengers (1 man, 1 woman and 1 child), the captain and Fredrick Fleet.

Re-enact the scene from 11:40, when the Titanic struck the iceberg, to 2:20 when the ship sunk.

Think about people's changes in thoughts, feelings and emotions as the ship goes from luxurious cruise liner to one of the most tragic disasters in recent history.

Task 2

It is time to use some hot seating.

On your whiteboards, thinking about what you have just acted out, write 3 questions you would like to ask the captain, the man/woman/child or Fredrick Fleet.

We need some confident and superb actors to use emotion and feelings as they answer these questions.

This is your last chance to get in the mindset of these characters before we write their diary entries.
