

St Nicholas CE Primary Academy

Geography Curriculum

Infinity Academies Trust

Ready to learn; Prepared to flourish.

At St Nicholas CE Primary Academy, we believe that reading is the key to success. We know that leaning new knowledge and applying it across a range of different contexts is a great way to measure progress.

For us, the attributes of a successful learner (ASLs) are: empathy, curiosity, listening, oracy and self-reflection. We develop these by delivering lessons that consist of 5 key ingredients:

- 1) Be active
- 2) Connect
- 3) Take notice
- 4) Give
- 5) Keep learning

This approach promotes a socially, emotionally and mentally healthy environment in which children can learn different agilities so they can let their light shine! For children to thrive in the next steps of their learning we provide carefully sequenced opportunities where they can acquire disciplinary knowledge, skills and agilities across 5 key areas:

- People
- Thinking
- Digital
- Change
- Knowledge

Central to ensuring that children are well-equipped for life in modern Britain, our Long and Medium Term Plans act as a spiral curriculum which revisits 8 concepts across the 7 years children are at our school:

- Climate and Weather
- Compare and Contrast
- Environment
- Sustainability
- Significance
- Human Features
- Physical Features
- Settlement and Land Use

Knowledge and Understanding	Skills	Values & Attitudes
Climate and Weather	Map work	Sense of identity and self-esteem
Compare and Contrast	Observation	Commitment to social justice and equity
Environment (UK and the world) and Sustainability	Fieldwork	Value diversity
Significance	Data Analysis	Concern for the environment and commitment to sustainable development
Human and Physical Features	Position	Commitment to participation and inclusion
Settlement and Land Use	Location	Belief that people can bring about change
