Ready to learn; Prepared to flourish.

Dear Families,

There is an exciting, new app that is available for **free** for our Year 1 children to use. It is called '**1-Minute Maths**' and has been created by White Rose Maths which is the scheme we follow in school. The app does not require the child to log in so once the app has been downloaded the children can begin straight away.

For instructions on how to download the app and how to use it, please see the next page.

We would like the children to spend **10 minutes a day** completing tasks on the app. There are a range of tasks for the children to go on such as: subitising (recognising an amount by looking at it), addition, subtraction, multiplication and division. Miss Smith will inform parents via Scholarpack as to which task the children need to focus on that week. Using this app for 10 minutes a day will support your child in building greater number confidence and fluency.

If you have any questions, please contact Miss Smith.

Kind regards,

Miss Smith
