

St Nicholas C.E Primary Academy

Year 6 – The Prophets

Term 1 Newsletter

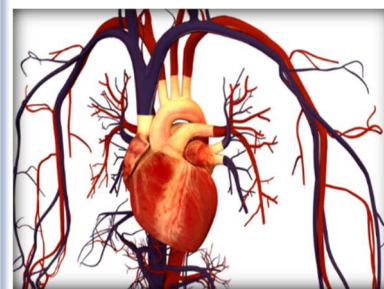

Hello and welcome to Year 6! We have such an exciting year ahead of us! This is undoubtedly an important year for your children as they come to the end of their primary school journey and prepare to embark on their next adventure – secondary school! We are here to support them (and you) throughout, so if you ever have anything you would like to discuss or query please come and see us at the class door or send us a message using the contact form on our class page on the school website: <https://www.bostonstnicholas.co.uk/>

We cannot wait to watch your children grow, flourish and shine their light!

Miss Taylor and Miss Allen

Topic – Blood Heart

This term, in our topic lessons, we will be learning about the human heart and its function within our bodies. Through lessons focused on Science, DT, Computing, Music and Art, we will learn to identify the main parts of the circulatory system (the heart, blood vessels and blood) and understand how these work together to transport oxygen and nutrients around our bodies. After we discover the parts that make up our circulatory system, we will then learn how we can maintain a healthy heart through living a healthy lifestyle.

In our **Science** lessons, we will continue our discovery of the circulatory system by looking closer at the characteristics of blood vessels and blood to further understand how they achieve their purpose. In this unit we will carry out investigations and report our findings to develop our ability to work scientifically.

In **RE**, we will be looking at God in the Christian faith and what it means if God is holy and loving. We will explore how God is described in different texts in the Bible and how Christians worship and praise.

In **Maths**, we will be learning about place value and will then move on to addition, subtraction, multiplication and division. We will also continue working really hard to improve our times tables and arithmetic.

In **English**, we will explore 'Writing to Inform' texts including blogs, letters and journalistic writing.

PE Days

Our PE will take place on **Tuesdays and Fridays**. On these days, children should **come to school in their full PE kit** as we will not be changing at school. Please make sure that earrings are removed before school or that you provide tape so that your child may tape them up for the lesson.

Be Prepared

We aim to spend as much time as possible outside therefore children need to bring a coat with them everyday (just in case). Also, please ensure your children bring a bottle of water to school as it important that they stay hydrated.

Home learning

Homework will be set each Friday and should be completed by the following Thursday. Each child is expected to access Times Table Rockstars and Nelly for 10 minutes daily, alongside practising their weekly spellings, which will be tested on Fridays.

Reading

This year, we would like your children to explore their own love of reading. We encourage children to read at least five times per week however what they read is their choice! Rather than checking reading records daily, we will be setting some exciting tasks so children can share what they are reading with enthusiasm.

Keep up to date on the exciting things happening in our class...
